UPRISING IN TURKEY.

A Rebellion Will Soon Be in Progress.

IT WILL BE GENERAL IN EXTENT.

Guns and Ammunition Are Being Smuggled Into the Country Across the Border From Russia and Persia—Armenians Destitute and in a Starving Condition. Outrages to Be Again Reported.

NEW YORK, May 27.—The following letter has been received by the Associated Press from their special correspondent in Armenia. It bears the date of Kars, Russia, April 20:

"During the past three weeks I have had unusual opportunity for obtaining additional confirmation of the facts contained in my announcement of the impending uprising of the Armenians in Turkey next month. I have traveled many miles up and down and across the border in search of certain facts, and as a result I have had the satisfaction of actually seeing and handling some of the rifles now being smuggled across the Turkish frontier by the agents of the revolutionary party. Moreover, the plans of the party have been fully explained to me by some of the most active and intelligent of the leaders of the eastern wing of the movement, and I am now entirely satisfied that unless unforeseen and uncontrollable circumstances arise the uprising will take place as announced.

"The exact date for the uprising has not yet been fixed owing for the most part to the fact that the extreme section of the revolutionary party is not ready for active operations. Whether or not the central section will wait for the eastern wing longer than the month of May I do not know nor has the matter actually been decided. I am led to believe that the eastern wing can not be ready for hostilities in May, and possibly not before the 1st of July. The eastern wing has been and is having a hard time of it, owing to circumstances over which the leaders have no control.

"In the first place, the mountain passes leading to Van have been blocked with snow for some months, so that only special messengers following the regular routes of travel could get through. And, therefore, it was impossible to forward guns and ammunition from Russia and Persia to the districts about Lake Van. There are guns now on the border awaiting transportation into Armenia.

"In the second place the Armenians in the eastern end of Turkey are in condition bordering upon starvation. It is obvious that people in this section can not fight. On this point a leading executive officer of the revolutionary party said to me three days ago: 'If men have nothing in their stomachs what can they do? We must first feed them before we can expect them to fight. When we can get food enough on hand to last them two months then we shall show the world how Armenians can fight.'

"It is this question of food that the revolutionary leaders will find most difficult of solution; for the problem of smuggling guns into Armenia will be solved with the coming spring, which is now just beginning to be felt in the lower valleys. It is plain that if no food is to be had people can not be fed, no matter how much money they may have, and it is a fact that in the eastern part of Armenia food is so scarce that the well-to-do and rich people have no more than they actually need.

"Few crops were grown last summer, owing to the fact that many of the farmers and cultivators were thrown into prison by the Turks under charges of revolutionary conspiracy. Then the cattle were stolen by the Kurds, and what the poor people had left in the way of provisions or property, was seized by the government officials for taxes. Even the commonest household utensils were taken by the tax gatherers, so the people were left destitute.

"Those who were able to do so fled to Russia and Persia, taking with them only the robes which covered their persons. Hundreds of them died on the road of starvation and exposure. Of these the old women and young children were the most numerous; but in many cases strong men broke down under the strain of hunger and despair. There will be no crops planted in eastern Armenia this spring, for the country everywhere is suffering from a reign of terror.

"The presence of the commission of inquiry at Moosh and the indignation of the Christian powers of Europe have had absolutely no effect on the conduct of either the Turks or the Kurds in eastern Turkey. I am just in receipt of trustworthy advices from a non-Armenian source at Van to the effect that a massacre is looked for at any moment.

"It is a fact which the British government can verify by consulting the report of Mr. Paton, an official of the British consulate at Tebriz, Persia, that in several cases the Turkish officials in the devastated district of Armenia tried hard to save the Armenian refugees from death and their property from destruction, but when they protested against the murderous raids of the troops the officers read to them the orders of the sultan, and so nothing could be done.

"Mr. Paton has lately returned to Tebriz from an investigating tour among the Armenian refugees along the border between Persia and Turkey. He found plenty of them from the Lake Van and Moosh districts, but not one from Sassoun. There are no Sassoun survivors in Ourmiana, Salmas, Diliman, Khoi, Tebriz or any other place in Persia, and so very few in Russia that they are most difficult to find. This absence

of Sassoun people among so many refugees from other districts of eastern Armenia suggests the dreadful possibility that few of those wretched people escaped the massacre.

"The investigation of Mr. Paton along the Persian border has been confirmed, and confirms now the facts in a general way which I have incidentally obtained during the past eight weeks. He has collected many heartrending stories of persecution, robbery, outrage and murder, with names, dates and places, and as reasonable proof that the refugees who gave testimony to him told the truth it may be said that in a general way the facts obtained in different places were practically the same. The events of the massacre were so horrible that even the chronic exaggeration of the Armenian mind fails to add anything to them.

"Mr. Paton was accompanied on this tour of investigation by Dr. Wright, an American missionary, stationed at Salmas. These gentlemen took the testimony from several witnesses to the effect that when the Turkish soldiers and Kurds appeared at a certain village they killed some of the villagers who dared to protest against their outrages, and many of the dead men were cut up and thrown into a kettle and boiled in a manner like so much beef. The boiled pieces were then given to the villagers for food. The wretched creatures were compelled to eat their friends to the last mouthful.

"In another village a party of Kurds found a child asleep in a cradle. They overturned the cradle and smothered the child. Then they dissected and roasted pieces of it before the fire. As a climax they compelled the members of the family, including the child's mother, to eat the roasted pieces. But these are only casual instances picked out at random from the mass of testimony taken by Mr. Paton and Dr. Wright, the details of which will be found in Mr. Paton's report if it is ever made public. So much that is horrible in the way of torture and outrage is scattered through this testimony that the report may not be made public.

"The refugees who tell these stories are for the most part ready to return to Armenia to wreak vengeance upon their persecutors as soon as they are supplied with ammunition, arms and food by the revolutionary party, and, as already stated, the only thing lacking is food. The weapons I have seen are known in Russia as "Soldatski" guns; that is the guns issued to the soldiers of the regular army of Russia. The gun is the Berdan rifle, a simple, efficient arm particularly well suited to rough usage.

"One of the bitterest things the Armenian revolutionary leaders have to reflect upon is the fact that many Armenians act as spies for the Turkish government. It is a melancholy state of things freely admitted by the Armenians themselves, that hundreds of Armenians can always be found to sell out their country and their friends for a few pieces of silver. The revolutionary leaders hardly know whom to rely upon, for the most trusted agents may be in the pay of the Turkish government.

"The leaders and agents whom I have met are apparently sincere and trustworthy. There was no bluster or brag or bluenose about anything they said. One man told me, while engaged in the preliminary work of the revolutionary movement, he once walked from Tiflis, Russia, to Constantinople, a distance of nearly a thousand miles. In Constantinople he worked as a boot-blacker. As to his present plans, this man's only concern is to supply food to the people of eastern Armenia. In a general way the man impressed me as being one who will never give up until he has accomplished what he set out to do.

"The headquarters of the revolutionary party are in London, and it is in London that the head leader issues his orders to his executive leaders in Russia, Persia and Turkey. It is my duty to give a word of warning to the kind-hearted persons in Great Britain and America who are subscribing funds for the relief of the Sassoun refugees. If these contributors have no desire to aid the revolutionary party they should ascertain very truly the ultimate destiny of their contributions. As I have already pointed out, the Sassoun relief funds are merely revolutionary funds in disguise.

"I am convinced that any relief money entrusted to any Armenian will sooner or later be used to help the revolutionary cause. The entire Armenian people are interested in this revolution. At present the only possible way in which the starving people of Armenia can be helped is by means of the Christian missionaries in Turkey and Persia. I say this not knowing what the complication might arise between the missionaries and the Turkish government, but to give money to Armenian committees is surely to aid the revolutionists. Help is needed, however, and that immediately."

ELECTRIC CAR AND WAGON.
One Woman Killed and Four Other People Severely Wounded.

CHICAGO, May 27.—A South Chicago electric car, drawing a trailer, dashes into a wagon containing five persons, at Seventy-ninth street and Yates avenue last night. The wagon was demolished, one woman was killed, another probably fatally injured and a third slightly injured, and two young men also slightly hurt.

The killed and injured are:
Franceska Ruzewicki, aged 58, widow, instantly killed.
Marianna Wiska, aged 59, widow, hurt internally; may die.
Agnes Ruzewicki, aged 25, bruised, not serious.
Thomas Ruzewicki, body bruised.
Stanislaus Posaezinski, slightly injured.

UNION OF REPUBLICS

New Treaties Made of Far Reaching Importance

JUST REPORTED TO WASHINGTON

The First Practically Step Taken Toward the Formation of a Central American Nation Out of the Several Small Republics, Nicaragua, Honduras, Guatemala, Salvador and Costa Rica.

WASHINGTON, May 27.—New treaties of far reaching importance have recently been made between Nicaragua and Honduras, and official copies have just been received in Washington. The treaties have been under negotiation for some time, and were finally put into effect by proclamation on the 15th of last month.

They are the first practical step toward the formation of a Central American nation out of the several small republics, Nicaragua, Honduras, Guatemala, Salvador and Costa Rica.

The first treaty forms a defensive alliance against common enemies. It obliterates commercial frontiers so that foreigners once admitted to one country are free to enter another. An express provision is made against the possibility of war between the countries by an article requiring differences to be adjusted by arbitration of some government on the American continent.

Article 53 is the one looking to the union in a single nation, and is as follows: "The high contracting parties solemnly declare that they can not and will not consider as foreign the other Central American countries, and that they will labor constantly to maintain the family bonds and the greatest cordiality in their relations making a common cause with them in case of war or difficulties with foreign countries, and mediating in their internal relations. To this end the present treaty will be submitted to their consideration, inviting them to subscribe to it as a common Central American treaty, until the arrival of the day when they shall be incorporated into a single nation."

The features of the treaty show the closeness of the alliance now formed between Nicaragua and Honduras. Article 1 binds the government to "unify their foreign policy, to act jointly in matters concerning Central American countries and to endeavor to bring about the same uniformity and harmony with the other governments of Central America."

The article pledging a mutual offensive and defensive alliance is as follows: "Both governments declare that there shall exist between them a defensive alliance in case of foreign war, and an offensive one against common enemies."

Article 4 arranges a plan of arbitration effecting all Central American States. Subsequent articles agree on uniform postal, tariff and other laws, uniform diplomatic representation abroad, etc. In every way possible the boundary line is wiped out, and the countries form a complete political union or alliance. Article 19 expresses the extent of this union as follows:

"The said contract government desirous of acting jointly in everything affecting their interests, besides endeavoring to make uniform their foreign policy and to have a common representative before other nations, shall endeavor to agree upon a basis upon which they shall conclude subsequent treaties with foreign nations and make concessions to steamship, railroad and other companies."

The leaders and agents whom I have met are apparently sincere and trustworthy. There was no bluster or brag or bluenose about anything they said. One man told me, while engaged in the preliminary work of the revolutionary movement, he once walked from Tiflis, Russia, to Constantinople, a distance of nearly a thousand miles. In Constantinople he worked as a boot-blacker. As to his present plans, this man's only concern is to supply food to the people of eastern Armenia. In a general way the man impressed me as being one who will never give up until he has accomplished what he set out to do.

The headquarters of the revolutionary party are in London, and it is in London that the head leader issues his orders to his executive leaders in Russia, Persia and Turkey. It is my duty to give a word of warning to the kind-hearted persons in Great Britain and America who are subscribing funds for the relief of the Sassoun refugees. If these contributors have no desire to aid the revolutionary party they should ascertain very truly the ultimate destiny of their contributions. As I have already pointed out, the Sassoun relief funds are merely revolutionary funds in disguise.

"I am convinced that any relief money entrusted to any Armenian will sooner or later be used to help the revolutionary cause. The entire Armenian people are interested in this revolution.

Superintendent Byrnes Will Resign.

NEW YORK, May 27.—The Advertiser says Chief Thomas Byrnes of the police department, has decided to resign. It will not surprise his close friends if he severs his connection with the force Tuesday. He has realized the existence of antagonism to him ever since the mayor appointed the four new police commissioners, and he does not care to fight the new board, as he will take off his shield and retire forever.

LONDON, May 27.—A dispatch from Athens to The Times says that gold exchange is rapidly falling. Ten days ago it stood at 85, and now it is at 72 and likely to fall still further.

PENSION DECISIONS.

Assistant Secretary Reynolds Decides Two Important Cases.

WASHINGTON, May 27.—Assistant Secretary Reynolds has decided that in the absence of conclusive evidence showing the dependent or non-dependent condition of a mother at the date of her soldier son's death her claim can not be rejected solely upon the ground that the soldier did not contribute to her maintenance.

Secretary Reynolds also holds that the legal representatives of a deceased claimant for bounty land warrant may prosecute for the benefit of the claimant's heirs or legatees his claim for such warrant pending on appeal at the time of his death; that the act of Feb. 1, 1847, applies only to soldiers who were living at the date of its passage and were then in the enlisted service, those who thereafter enlisted and the family or relatives of such only; that the act of March 3, 1855, applies to those soldiers living at the date of its passage and to widows or children of those who had died prior thereto, and that a certificate or warrant issued jointly to several co-warrantees may not be recalled or canceled after the death of any of the.

FATAL FIGHT AT CHURCH.
One Man Shot and Killed and Another One Fatally Wounded.

NICHOLASVILLE, Ky., May 27.—A bad shooting affray took place at the Troy Presbyterian church, on the line between this county and Woodford yesterday at 12 o'clock, between George and John Montgomery, brothers, and Arch D. Riley. Riley was killed and George Montgomery fatally wounded. Five shots were exchanged, one taking effect on Montgomery and three on Riley.

The trouble is of long standing and grew out of Riley deceiving a sister of Montgomery's two years ago and then refusing to live with her. The men met at the church yesterday and the fight ensued. Both families are very prominent and the affair has created a great sensation. The great wonder is that others were not killed while the shooting was going on, as the church yard was filled with people.

AFFAIRS AT POCOHONTAS.

Action Taken at the Columbus Convention Will Probably Decide the Strike.

POCOHONTAS, Va., May 27.—A meeting is being held here today when delegates will be selected to go to Columbus, O. No action looking to the adjustment of the strike will be entertained until the national convention meets when it is claimed the Virginia, West Virginia, Illinois, Indiana and Ohio men may join in asking an advance of wages.

Meetings were held in West Virginia yesterday. Conditions here are the same, and an effort will be made to induce the men to return to work. Great indignation exists at the effort of the coal companies to dispossess the men who refuse to work in the southwest Virginia mines and the Hungarian consul has been written at Pittsburgh to look into their treatment.

STOLE FROM THE MAIL.

The Thief Confesses to Have Taken a Large Amount.

ST. JOSEPH, Mo., May 27.—Samuel F. Holliday, one of the trusted letter clerks in the St. Joseph postoffice, was taken from his bed shortly before daylight Sunday morning by Inspector George Sutton and charged with robbing the mails. When taken before Postmaster Atkinson, he confessed.

Holliday's plan was to steal promising looking letters from the Grand Island mail, take out a part of the money whenever he found any, and then remail the letters. He confessed that he had been stealing since January and had taken a large amount. The postoffice department has had men at work on the case for four months and has spent \$3,000 running Holliday down. Holliday stole to support an extravagant wife.

Steamer Detained at Quarantine.

NEW YORK, May 27.—The Prince Line steamship Mexican Prince arrived at quarantine on the afternoon of the 25th inst., after a protracted voyage from the River Plate and Brazilian ports. Captain Deuchars, on arrival at quarantine, reported to the deputy health officer that on May 11 one of the ship's crew had been removed to a hospital at Rio Janeiro suffering from yellow fever. Health Officer Doty, upon investigation, decided to detain the steamer for observation and disinfection, and also to make a more thorough inquiry as to the sanitary conditions of the steamer.

Crops in Nebraska Improved.

OMAHA, May 27.—Specials to The Bee from every county in the state indicate that the condition of small grain is greatly below the average, though copious rains within the last two days have materially improved the prospects. Winter wheat, of which the average is not large, has been the worst sufferer. Corn is up and generally reported good, though its growth has been retarded by cold weather but not sufficiently to cause any uneasiness. The north part of the state shows a much more favorable condition. Frosts have done very little damage except to garden truck.

Coaching Club's Annual.

NEW YORK, May 27.—Upper Fifth Avenue and the aristocratic residence circle generally was full of life and excitement Saturday over the annual parade of the New York Coaching club. Several hundred vehicles, from the prettiest of dog carts to towering tally-hos, were in line. The drivers were men of national reputation in the financial and other worlds. William Jay, Porcy Bell, J. Seward Webb were among the number.

Three People Drowned.

ONSTED, Mich., May 27.—William Doolittle, a married man, and Bert Salisbury and Mina Patterson, both single, while fishing yesterday afternoon on Maharrs lake, fell overboard and were drowned. No one else was present to tell how the accident occurred. The bodies were found in 20 feet of water near where the boat was anchored.

Arbitration Story Denied.

PARIS, May 27.—The report that the United States is to act as arbitrator between France and Venezuela in the matter of dismissal by Venezuela of the French minister is denied.

MARTI IS NOT DEAD

Passengers From Cuba Deny the Reported Death.

ANOTHER BATTLE WAS FOUGHT.

The Report Comes From a Spanish Source and of Course the Cubans Were Defeated—A Vast Amount of Money Being Raised in the United States For the Cuban Cause.

TAMPA, Fla., May 27.—The Cuban steamer last night brings news discrediting Marti's death. Passengers assert that his death is not believed in Havana by either Cubans or Spanish.

From Spanish sources come reports of a battle near Guantanamo on Tuesday between Colonel Santonal, commanding 200 Spaniards, and 400 Cubans. The latter were defeated.

Cubans here, in addition to the regular 10 per cent contribution to the revolutionary fund, have since the report of Marti's death made 25 per cent contributions. A number of prominent Cubans will visit Jacksonville to attend the massmeeting there Tuesday.

RAISING MONEY.

Enthusiastic Meeting Held in New York City by Revolutionary Clubs.

NEW YORK, May 27.—One hundred and fifty men, representing 13 Cuban revolutionary clubs of this city, was as one man in Military hall yesterday evening when Señor Juan Fraza, the presiding officer, asked them if they were willing to contribute one-tenth of their week's wages to help make Cuba free, and for a few moments thereafter Señor Fraza and Senors Antonio Camero, Trujillo, Aguirre, Tirado and Terreforte, who are prominent in the central council of Cuban clubs, were busy taking in bank notes.

Previos to this Señor Fraza read a letter, which he said he had recently received from Key West. The name of the writer was not given, but it was intimated that he is a person high in the councils of the Cuban movement. The writer denounced the statements of Marti's having died on the battlefield as pure fabrications, emanating from Spanish sources.

Addresses were made by Señors Fraza, Trujillo, Henrique, Terreforte and Professor Emilio Agramonte. The last named, in an impassioned

BUSINESS IMPROVING.

Cotton on a Boom, Wheat Going Up, Beef High And Is Corn Advancing.

Louisville Post: "Cotton is on a boom. Wheat is going to 75 cents. Corn is over 50 cents, but we have no more 'primary' money than we had when the panic overtook us in 1893. Even the markets have entered into a conspiracy to destroy silver."

Georgetown Times: "Farm products continue to advance in price; factories that were idle are being open; the wages of employees in various lines of industry have been increased and merchants report fair sales with the prospect of continued improvement. If some of the political demagogues could be muzzled and the people be let alone to pursue their respective avocations it would still add to the improved condition of things."

Cincinnati Post: "The Dry Goods Economist has secured the opinions of the leading 125 manufacturers, importers and wholesale dealers of the country in regard to the outlook for trade in textile products. Replying to questions about prices, 61 per cent say that they expect them to be higher. A few are of the judgment that only a slight advance may be looked for. About 67 per cent of the concerns state that they have all received encouraging reports from their customers. The retailers' stocks are exceptionally small, according to the response of 80 per cent of the concerns. The responding companies, on the whole, are sanguine of better times for the fall trade."

THE PULSE OF TRADE.

It Is Beating Faster Every Where. Wages Being Increased. Business Better.

[Cincinnati Post.]

The long hoped-for business boom has come.

Throughout the entire country the wheels of industry which have been idle for months, and in some instances for years, have again commenced to revolve.

The resumption of business at full force and time in factories that have been working at low pressure or only intermittently for the past two years, is reported daily, while the wires are kept hot spreading the news of advances being made in wages paid to employees.

In every line of business confidence is being restored, and the general pulse of trade is beating faster than it has for many months. The demand for manufactured products is especially on the increase, which naturally has its effect on all departments of trade.

Now is this industrial revival confined to one section of the country.

An indicator to the general improvement is the report that comes from Haverhill, Mass., where the shoe shipments of last week broke the record. There were 11,750 cases sent out, exceeding the highest number shipped any previous week by 800 cases.

Despite the fact that the Carnegie company had made contracts with its workmen for the present year, it has decided to make a general increase of 10 per cent at all the furnaces. The example was immediately followed by Jones & Langlin, who operate the American Iron Works at Pittsburgh. The encouraging feature about these increases, as well as many others throughout the country, is that they have been made voluntarily, without any solicitation on the part of the workmen.

The C. and O.'s excursion to Oligo-nunk Sunday was very well patronized. They had five coaches all comfortably filled.

THE LATE MRS. MARY E. REESE.

A Tribute To One "Whose Name Should Live Long in the Memory of Her Posterity."

[Central Methodist.]

I have recently buried one of the oldest and most prominent members of the church in this charge: Mrs. Mary E. Reese. She died at her home March 9, where she was born, brought up, married, and lived all her days, and was buried in the family-hunting ground on the same farm where her home was. She was the daughter of Elijah Haden, who was one of the early settlers of Mason County. It is said that Benjamin Ogden, who with James Haw, were the first two preachers that Mr. Ashurst sent into Kentucky, preached to his cousin shortly after their arrival at Limestone. That sermon was probably the second sermon that Ogden preached in Kentucky, the first one being in the house of Thomas Stevenson. Some of the foundation stones of the cabin that Ogden preached in are still to be seen on the ground. Mrs. Reese at the time of her death was eighty-one years of age, and had been a member of the church for 65 years. Her father's house was one of the preaching places for many years of the early preachers, and it was in her home that she joined the church sixty-five years ago under the preaching of William Askins, one of the most zealous preachers of his day. She was married in 1834 to Daniel Reese by whom she had seven children, five of whom are living and settled in Mason County. She and her husband were exemplary members of the church during their married life, and their home was always a stopping place for the preachers. An old plan of the Limestone circuit shows Haden's to be one of the preaching places in said circuit, and afterwards when the Minerva circuit was organized, one of the preaching places was Reese's. Mrs. Reese belonged to a family that has helped to make history for Methodism in Mason County. She was the wife of Thomas Stevenson, the first book agent of the Southern Methodist Church. Her father's house was probably the cradle of Methodism in Kentucky, for it was there that Ogden and Haw began their labors among the sheep in the wilderness. More than this, her grandfather, John Evans, was the first convert to Methodism in America, and he and his wife helped to constitute the first class that was ever organized in America. All this took place on Sam's Creek, in Maryland, under the ministry of Robert Strawbridge, who was one of the first Methodist preachers to come to America.

Strawbridge settled on Sam's Creek when he came to America, and caused to be built there the first church erected in Methodism on the continent. He was a zealous and faithful man, and the Evans' were his first converts. The class that he collected together was organized in 1764, and was composed of seven or eight members, of whom were John Evans and his wife, and his nephew, Job Evans, and his wife. Thus did the ancestors and kinsmen of Mrs. Reese help to make the beginning of Methodism in America. A woman who is connected with the rise of Methodism on the continent and also in her native State, is entitled to all honor, and her name should live long in the memory of her posterity and friends. Her children are all members of the Methodist Church, and are warm supporters of its institutions, and are thus endeavoring to walk in the steps of their venerable and much-respected mother. The funeral services of this venerable servant of God were attended by a large concourse of people from all parts, and she was devoutly and reverently laid to rest by the side of her husband and kindred until the dawn of the resurrection. The church on this charge has suffered much by the death of its prominent members since my connection with it. Shortly after I came to it we lost Mrs. Colvin and Mrs. Dowling of the Hebron Church, two valuable members. Afterwards John T. Woodard and John W. Williams, two of the most prominent members of the Salem Church passed away, and now Mrs. Reese, of the Hebron Church, is removed from us, and we feel that our ranks are being thinned. But we have hope through God.

TAKE CARE OF THE BODY.

Play Base Ball, Ride a Bicycle—Dr. Talmage Talks Interestingly on This Subject.

NEW YORK. Dr. Talmage's talk to the young men at the Academy of Music by request of six youthful sermon readers of Fayette, O., was one of the most interesting in that line that has been delivered for some time.

"Get your soul right," said the doctor: "It is the most valuable room in your house. See that you have the right pictures on the wall. A young man is not safe in this city for one moment without God. Countless of them come here and go to pieces in three months. They are the genial and the generous; the mean man is not in peril.

"Next, have the body right. Thousands are to-day suffering from the sins of their youth. Let a young man make a demijohn of himself, let him palis his frame with cigarettes, and religion will not repair his body. Take plenty of outdoor exercise, play base ball, lawn tennis, ride a bicycle—if you can sit upright, but don't cultivate a condition approaching going on all fours.

"I have approached a punchingbag feeling as if Satan had possession of the entire world, and have hurried home to get there before the millennium began. Take a five-minute run every day. It is worth a five-hour walk. I have done it since I was 19 years old.

"Take care of your intellect. Don't read bad books. Take a good newspaper. Oh, for more newspapers that will put stories of virtue in long primer and stories of vice in agate.

"Buy a home—two rooms, with the blessing of God on both. A husband and wife who can't be happy in two rooms wouldn't be happy in heaven after they got there. There is no such thing as luck. Everything is done by hard work. Never go to any place where you would not be willing to die. Have some mercy on the minister who will have to talk at your funeral."

FIRE NEAR MORANSBURG.

Mr. W. L. Moran Loses a Two-Story Frame Dwelling Saturday Night. The Insurance.

A two-story frame house on the farm of Mr. W. L. Moran, near Moransburg, was destroyed by fire Saturday night at 11 o'clock. It is not known how the fire started.

The building was occupied by a family named McElfresh, who lost all they had in it. They had no insurance. Mr. Moran's loss is \$700 or \$800. He had \$500 insurance in the Agricultural.

A house on Mr. Moran's farm near Westphalia, Kan., caught fire one day last week, but the flames were extinguished before much damage was done.

Revival Services.

The services at the M. E. Church, South, yesterday were very interesting, and the prospect for a very successful meeting is promising. The sermons were interesting, and made a profound impression upon the audience. When invited forward for prayer and consecration to personal work the altar and front pews were filled with those anxious to be used of God in leading others to Christ. Three or four requested prayers at the morning service.

Rev. Mr. Browne will conduct services to-day at 3 p. m. and 7:30 p. m. After to-day the services will be at 9 a. m. and 7:30 p. m. All Christian people are invited to cooperate in the work, and everybody invited to attend the services.

Three Days More.

Mr. Kinneman has decided to remain here three days longer with his show. The band has been strengthened by the addition of several members, and three more performers arrived last evening. A change of program with each performance. A matinee will be given Wednesday afternoon, at which the general admission will be only 10 cents. Everything is running smoothly, and the extremely low price should pack the canvas during the rest of the engagement here. Go out and spend an evening, and take your friends.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect, of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

SECRETARY GRESHAM WORSE.
Representative Hitt About the Same and
Gail Hamilton Still Unconscious.

WASHINGTON, May 27.—A decidedly unfavorable change in Secretary Gresham's condition occurred Saturday night, and it is said that for some time he was in a very serious condition. This change, it is stated, was the result of a recurrence of the stomach troubles from which he suffered so acutely earlier in his illness, and he experienced considerable pain and tossed about restlessly unable to obtain rest. His physician was with him for several hours, and left him in the early morning. Although somewhat better now, he still feels the effect of the attack. It is understood that his son Otto and Mr. Landis, his private secretary, have been telegraphed to come to Washington.

Represent Hitt's condition remains about the same.

It was said at Mrs. Blaine's house that Miss Mary A. Dodge (Gail Hamilton) was slightly stronger. She still remains unconscious most of the time and no hope of her final recovery is held out.

DID NOT KNOW IT WAS LOADED.
Two Girls Killed and a Little Baby Slightly Wounded.

NASHVILLE, May 27.—News has reached this city of a frightful tragedy which occurred near Chestnut Mound, Smith county, on Friday last, as a result of which two young daughters of Sam McKinney are dead, while his baby is slightly wounded.

McKinney had been out on his farm with a Winchester rifle, and approaching the house handed the gun to his 23-year-old son Henry, requesting him to take it in the house. Approaching the front door Henry decided to unload the gun and thinking he had removed all the loads, he let the hammer fall, only to hear a report and feel the gun recoil in his hands.

Through the door the bullet sped and through the bodies of the sisters, who were close together just inside the door. The elder was eight years old, the other being a few years younger, and both were instantly killed, while a nine-months-old infant was also slightly injured.

WIRE NAIL TRUST.

Only a Few More Details and All Will Be Arranged.

PITTSBURG, May 27.—The Dispatch announces that a wire nail trust is in process of formation. Only a few details remain to be arranged. A feature of the deal is reported to be the sale of the Beaver Falls plant to the Consolidated Steel and Wire Nail company.

It is said all the plants in the country will be in the combination except the Philadelphia and Joliet mills, which are operated by Booker & Company of Pittsburgh under lease. Manufacturers of wire nails have refused to quote prices for delivery after June 1. It is also stated on good authority that the cut nail manufacturers are trying to form a combination.

IN JESUS' HONOR

A Young Lady Graduate Will Tour the World.

LAPORTE, Ind., May 27.—Miss Anna Smith of near Buffalo will start June 1 for a tour of the world. Miss Smith is a religious enthusiast, and her journey will be undertaken with a view of conducting evangelistic work in every inhabited country which has been a field for missionary labor.

A feature of her journey will be that all expenses incurred will be met by compensation, which she will derive from her individual work.

Miss Smith is but 22 and a college graduate.

No Troops Yet Sent.

WASHINGTON, May 27.—So far as can be ascertained no action has yet been taken by the war department on the request of the secretary of the interior that troops be sent to the scene of the threatened trouble of the Winnebago and Omaha Indian lands in Nebraska, growing out of the settlement on those lands by the Flournoy Real Estate and Livestock company and others.

Will Mark the Spot.

PHILADELPHIA, May 27.—Work will be commenced next week on the monument at Doylestown which will mark the spot where General Washington crossed the Delaware river with his army to attack the British at Trenton on Christmas day of 1776. The monument is to be carved out of a solid block of stone, weighing three tons.

Dense Fog Stops a Steamer.

A dispatch from Pittsburgh the last of the week says that steel billets were sold there by a leading firm at \$17 a ton, which was the highest point reached for several months. It adds that there is a general feeling that the advance has come to stay, and that the demand will continue brisk.

Cincinnati Tobacco Market.

Furnished by the Cincinnati Leaf Tobacco Warehouse Company:

We are glad to report a continuation of the strong market which we quoted in our last. If anything, the bidding was quicker and prices higher.

While mediums received the larger part of the betterment in the beginning, low grades came gradually stronger during the week, and selling from 10¢ to 12¢ per pound new and old. The present advance is due in large measure, we think, to the light receipts and sales, and largely decreased stocks in the market, but, of course, the destruction of plants by the entomophagous worm has stimulated the speculative demand, and doubtless this fact also contributes to the improvement. However this may be, whether there will be a scarcity of plants or not, we look for a good demand throughout the year.

The greatly improved market outlook, the enhanced prices of other products, etc., justify this opinion.

At the same time we would advise our shippers to take advantage of the strong market which we are now having and make sales right along. Larger offerings will soon come, and though we anticipate no permanent decline, as indicated above, there may be less eagerness to buy if they become very liberal.
